ENGLISH LANGUAGE ARTS 20-1: MODULE 6

SECTION 3 ASSIGNMENT AND FINAL MODULE ASSIGNMENT

Your mark for this module will be determined by how well you do your assignments in the Assignment Booklets.

There is one section assignment and one Final Module Assignment in this Assignment Booklet. The value of each question is stated in the left margin. This Assignment Booklet is worth 120 marks out of the total of 265 marks for Module 6.

Work slowly and carefully. If you have difficulties, review the appropriate section before completing the assignment.

You're encouraged to use a computer and word-processing application for many of these questions. If you use a computer, be sure that you submit a printed copy that has been carefully proofread. Include your name, course name, and assignment question number on each page. Alternatively, you may be able to arrange with your teacher to submit your written assignments by e-mail.

Section 3 Assignment: The Feature Film

Read all parts of your assignment carefully and record your responses in the appropriate places.

1. As you've seen in this lesson, filmmakers, like photographers, use many different types of camera shots. Look through several magazines and/or websites to find some examples of photographs illustrating different types of camera shots. Select **three** photographs illustrating different kinds of shots. Attach the original photos or printouts of the shots you've selected in the spaces provided (photocopies will do if necessary); then write a brief analysis of each photograph, explaining the effect of that particular shot.

Here are some suggestions to help you with this assignment:

- Try to locate examples of three different camera shots. You can consider angle, distance, perspective and other camera techniques. The material on pages 158 to 167 of the *English Language Arts Handbook for Secondary Students* may help you with this task.
- Label each photograph with a letter (A. through C.), so that you can refer to it in your analysis.
- In your analysis, consider the effect of using that particular shot on the subject. (Why did the photographer decide to shoot the subject in that particular way?) Consider, as well, how effectively, in your opinion, the desired effect was achieved.

Attach your photographs on the following pages. There will be space for your analyses later.

Present your analyses in the spaces provided here:

The paper has a slightly textured appearance and some minor discoloration or faint smudges, particularly near the top edge. The overall tone is off-white or light gray.

When you've finished responding to the preceding questions, return to page 67 of the Module 6 Student Module Booklet and continue working where you left off.

3. In the first minutes of a feature film, a director has many tasks to accomplish. Watch the **first five minutes** of the film you've selected. Then respond to the following questions:
